

FINALLY!

*An Alternative to Metal Sampling Tubes
Designed only for APC Brand Duct Detectors!*

FAST TUBE

*Lightweight Sectional
Air Sampling Tubes for
Duct Detectors*

Benefits to YOU:

Reduce Inventory SKUs

- The new **FAST TUBES** fit all APC Duct Detectors: SL, SM, RT Series

Increase Revenue

- Never let a customer walk out without air sampling tubes because they didn't know the size needed - one pack will cover duct widths up to 8ft

Increase Margins

- Lightweight material means lower freight cost, standard size cartons are less prone to damage in transit

Easier To Manage

- Conveniently bagged with a hang tag for display adjacent to the detectors

Benefits to YOUR CUSTOMERS:

Walk Out With The Right Part, Every Time

- The **FAST TUBE** assemblies are fit to APC duct detectors using the connector supplied with every detector with the mounting hardware.

Save Money

- One pack of **FAST TUBES** will fit duct widths up to 8ft, extra sections can be saved and/or added to longer assemblies for wider ducts

Designed and Manufactured in the USA

- Like all detectors and accessories from APC

Easier To Handle

- No more nicks and cuts from sharp, dirty metal edges on regular tubes
